

# Year 3 – Spring 2 ~ Knowledge Organiser Enquiry Question: What do plants need to thrive?

Subject Specific Vocabulary	
Flower	These make seeds to grow into new plants. Their petals attract
	pollinators to the plant.
Leaves	These make food for the plant using sunlight and carbon dioxide from
	the air
Stem/trunk	This holds the plant up and carries water and nutrients from the soil to
	the leaves. A trunk is the stem of a tree.
Roots	These anchor the plant into the ground and absorb water and nutrients
	from the soil.
Petal	A petal is a modified leaf that protects and surrounds the reproductive
	parts of a flower. They are brightly coloured in order to attract
	pollinators, thereby enabling the process of plant reproduction.
Soil	Soil is a mixture of minerals and organic material that covers much of
	Earth's surface.
Reproduction	Plant reproduction is the creation of new plants by one or more parent
	plants.
Seed	Seeds are the small parts produced by plants from which new plants
	grow.
Dispersal	Dispersal is the means by which a plant ensures its seeds are spread as
	far as possible from the parent plant, to give the seeds the best chance
	of germination.
Pollination	Pollination is the process that allows plants to reproduce.
Fertilisation	Pollen reaches the newflower and travels to the ovary where it
	fertilises egg cells (ovules) to make seeds. This is fertilisation.
Absorb	To take in or suck or swallow up.
Nutrients	These substances are needed by living things to grow and survive.
	Plants get nutrients from the soil and also make their own food in their
	leaves.
transportation	Transportation is the process that involves the movement of water and
	necessary nutrients to all parts of the plant for its survival.

survive in areas with little water, whereas water lilies need to live in water.

#### **English**

## Launch Text: The Promise by Nicola Davies Please provide a copy of this text to support

your child's learning in school.

#### Writing

To know how to write a sequel to The Promise. To know how to write a science explanation text on how to care for plants. To know how to write a persuasive letter to care for the environment. To know how to describe emotions. To know how to use a/an appropriately. To know how to use the prefect present tense. To know how to use speech marks. **Spelling** 

To know how to spell: homophones, words with prefix 'bi' and 're, /g/ spelt 'gue' and /k/ spelt 'que' and /sh/ spelt 'ch'. Reading

To know how to infer character's feelings, thoughts and motives and justify using evidence from the text.

To know how to answer comprehension questions using a range of texts.

#### Maths

## Multiplication and Division:

To know how to multiply and divide a 2-digit number by a 1-digit number and link multiplication and division.

#### Length and Perimeter:

To know how to measure in mm, cm and m. To know how to add and subtract length. To know how to measure perimeter.

#### Fractions:

To know about the denominator of unit fractions. To compare and order unit and non-unit fractions. To know about the numerator of non-unit fractions. To know how to place fractions on a number line and count in fractions on a number line.

## Bluebell Class – Spring Term 2

What do plants need to thrive?

e Living Rainforest - £20 (approx.)

#### **Physical Education**

#### Gym

To know how to explain how strength and suppleness affect performance.

To know how to compare and contrast gymnastics sequences.

#### Tag Rugby

To be aware of space and use it to support team-mates and to cause problems for the opposition.

To know how to throw and catch with control.

To use rules fairly.

## Computing

#### Email

I know how to use email such as 2Email to respond to others appropriately and attach files.

**Branching Databases** 

I know how to collect data and input it into software.

I know how to analyse data using features within software to help such as, formula in 2Calculate (spreadsheets).

#### French

#### **Family and Friends**

To know how to identify and introduce some of their relations. To know how to name some common pets. To know how to name some rooms in their home. To know whether nouns are masculine or feminine. To know how make new sentences by substituting other vocabulary appropriately.

#### Science

#### Plants

To know how to identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers. To explore the requirements of plants for life and growth (air,

light, water, nutrients from soil, and room to grow) and how they vary from plant to plant.

To know how to investigate the way in which water is transported within plants. To explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal.

Animals, including humans and nutrition (DT link)

To know that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat.

To know that humans and some other animals have skeletons and muscles for support, protection and movement.

To know how seasonal fruits in Britain are grown and processed. To know why vegetables form an important part of a healthy and varied diet. To show what you have learned about eating seasonal food as part of a healthy, varied diet. To explore and evaluate a range of existing products To use your knowledge the basic principles of a healthy and varied diet to prepare dishes. To know the different food groups and name food from each food group. To know that food has to be grown, farmed or caught in the UK, Europe and the wider world. To a wider variety of ingredients and techniques to prepare and combine ingredients safely.

#### Music

## Charanga - Musical Styles

I know how to share what has taken place in the lesson. I know how to improvise with a song.

#### Personal, Social and Health Education

### Jigsaw Piece - Healthy Me

To know how exercise affects their bodies. To know why their hearts and lungs are such important organs. To know that the amount of calories, fat and sugar that they put into their bodies will affect their health. To know that there are different types of drugs. To know that there are things, places and people that can be dangerous. To know a range of strategies to keep themselves safe. To know when something feels safe or unsafe. To know that their bodies are complex and need taking care of.

## **Religious Education**

## What is 'good' about Good Friday?

To reflect on what I think might or might not be good about the story of Easter as a rescue.

To know why Christians might see Jesus' death as important. To reflect on the Easter story and explain what might be good about

Good Friday to a Christian.
