

# Primary School Health Nurse Team Newsletter

## Term 2 November 2019

*This newsletter aims to provide families and young people with some useful tips for keeping healthy. Childhood is an important time to instil healthy habits and learn crucial life skills. Establishing these habits early on will help to improve your child's quality of life in the future and enable them to reach their full potential educationally.*

## Flu Vaccinations

The school-based flu programme is underway.

For most children the flu vaccine is a painless spray up the nose, providing important protection and stopping them passing the flu onto others, for whom flu can be very nasty!

The process to give your consent is on line, an email will come to you from your child's school and this needs to be completed straight away, once per child (please discuss with your partner as appropriate).

The opportunity to complete form is up to 3 days before the school session, please make every effort to complete the form ASAP. We are receiving 100s of calls from parents and carers who have missed the deadline and are having to book into out of school clinics.

This month – we recommend for improving the whole family's oral health Brush DJ!
