

Stanford in the Vale Primary School

E-Safety Acceptable Use Policy

Schedule for Development / Monitoring / Review

This e-safety acceptable use policy was approved by the Governing Body:	28 th September 2017
The implementation of this e-safety policy will be monitored by the online safety group:	Online safety group: Duncan Scott, Amanda Willis, Nona Lewis and Claire Lewis
Monitoring will take place at regular intervals during every co-ordinator review day.	Reviewed once a year
Governing Body will receive a report on the implementation of the e-safety policy generated by the monitoring group (which will include anonymous details of e-safety incidents) at regular intervals:	Annually
The E-Safety Policy will be reviewed annually, or more regularly in the light of any significant new developments in the use of the technologies, new threats to e-safety or incidents that have taken place. The next anticipated review date will be:	September 2018
Should serious e-safety incidents take place, the following external persons / agencies should be informed:	LADO, CEOP and the police

The school will monitor the impact of the policy using:

- Logs of reported incidents on Integris
- Notification of inappropriate content being accessed via TurnItOn
- Surveys / questionnaires of
 - pupils
 - parents / carers
 - staff

Scope of the Policy

This policy applies to all members of the school (including staff, pupils, volunteers, parents / carers, visitors, community users) who have access to and are users of school ICT systems, both in and out of the school

The Education and Inspections Act 2006 empowers Headteachers to such extent as is reasonable, to regulate the behaviour of pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of cyber-bullying, or other e-safety incidents covered by this policy, which may take place outside of the school, but is linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data (see appendix for template policy). In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

The school will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents / carers of incidents of inappropriate e-safety behaviour that take place out of school.

Roles and Responsibilities

The following section outlines the e-safety roles and responsibilities of individuals and groups within the school.

Governors:

Governors are responsible for the approval of the E-Safety Acceptable Use Policy and for reviewing the effectiveness of the policy. This will be carried out by the Governors receiving regular information about e-safety incidents and monitoring reports. A member of the Governing Body has taken on the role of E-Safety Governor. The role of the E-Safety Governor will include:

- regular meetings with the E-Safety Co-ordinator: Duncan Scott
- regular monitoring of e-safety incident logs: Integris
- reporting to relevant Governors

Headteacher and Senior Leaders:

- The Headteacher has a duty of care for ensuring the safety (including e-safety) of members of the school community, though the day to day responsibility for e-safety will be delegated to the E-Safety Co-ordinator Duncan Scott.
- The Headteacher and (at least) another member of the Senior Leadership Team should be aware of the procedures to be followed in the event of a serious e-safety allegation being made against a member of staff. (see flow chart on dealing with e-safety incidents – included in a later section – “Responding to incidents of misuse” and relevant Local Authority HR / other relevant body disciplinary procedures).
- The Headteacher is responsible for ensuring that the E-Safety Coordinator and other relevant staff receive suitable training to enable them to carry out their e-safety roles and to train other colleagues, as relevant.
- The Senior Leadership Team will receive updates as appropriate E-Safety Co-ordinator.

E-Safety Coordinator / Officer: Duncan Scott

- leads the e-safety committee
- takes day to day responsibility for e-safety issues and has a leading role in establishing and reviewing the school e-safety policies / documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an e-safety incident taking place.
- provides training and advice for staff
- liaises with the Local Authority / relevant body
- liaises with school technical staff
- receives reports of e-safety incidents
- meets regularly with E-Safety Governor to discuss current issues
- attends relevant meeting
- reports when appropriate to Senior Leadership Team

Network Manager / Technical staff: Steven Boland via TurnItOn

The Network Manager / Technical Staff is responsible for ensuring:

- that the school’s technical infrastructure is secure and is not open to misuse or malicious attack

- that the school meets required e-safety technical requirements and any Local Authority E-Safety Policy / Guidance that may apply.
- that users may only access the networks and devices through a properly enforced password protection policy, in which passwords are regularly changed for Staff and visitors
- Filtering is applied and reviewed
- that they keep up to date with e-safety technical information in order to effectively carry out their e-safety role and to inform and update others as relevant
- that the use of the network / internet / Virtual Learning Environment / remote access / email is regularly monitored in order that any misuse / attempted misuse can be reported to the Headteacher and E-Safety Coordinator for investigation, action and sanction
- that monitoring systems are implemented and updated as agreed in school policies

Teaching and Support Staff

are responsible for ensuring that:

- they have an up to date awareness of e-safety matters and of the current school e-safety policy and practices
- they have read, understood and signed to say they understand the E-safety Acceptable Use Policy
- they report any suspected misuse or problem to the Headteacher for investigation / action / sanction
- all digital communications with pupils / parents / carers should be on a professional level and only carried out using official school systems
- e-safety issues are embedded in all aspects of the curriculum and other activities
- pupils understand and follow the e-safety and acceptable use policy / agreements
- pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

Child Protection / Safeguarding Designated Person: Amanda Willis & Rachel Cook

should be trained in e-safety issues and be aware of the potential for serious child protection / safeguarding issues to arise from:

- sharing of personal data
- access to illegal / inappropriate materials
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- Online radicalisation
- cyber-bullying

E-Safety Group

The E-Safety Group is responsible for issues regarding e-safety and the monitoring the e-safety policy. The group will also be responsible for regular reporting to the Governing Body.

Members of the E-safety Group will assist the E-Safety Coordinator with:

- the production / review / monitoring of the school e-safety policy / agreements.
- monitoring network / internet / incident logs

- consulting stakeholders – including parents / carers and the pupils about the e-safety provision
- monitoring improvement actions identified through use of the 360 degree safe self review tool

Pupils:

- are responsible for using the school digital technology systems in accordance with the Student / Pupil Acceptable Use Agreement
- have a good understanding of research skills and the need to avoid plagiarism
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking / use of images and on cyber-bullying.
- should understand the importance of adopting good e-safety practice when using digital technologies out of school and realise that the school's E-Safety Policy covers their actions out of school, if related to their membership of the school

Parents / Carers

The school will take every opportunity to help parents understand the need to use the internet / mobile devices in an appropriate way through parents' evenings, newsletters, letters and website. Parents and carers will be encouraged to support the school in promoting good e-safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- access to on-line student / pupil records
- their children's personal devices in the school

Community Users

Community Users who access school systems / website as part of the wider school provision will be expected to sign an internet usage agreement.

Policy Statements

Education – students

Whilst regulation and technical solutions are very important, their use must be balanced by educating pupils to take a responsible approach. The education of pupils in e-safety is therefore an essential part of the school's e-safety provision. Children and young people need the help and support of the school to recognise and avoid e-safety risks and build their resilience.

E-safety is a focus in all areas of the curriculum and staff reinforce e-safety messages across the curriculum. The e-safety curriculum is broad, relevant and provides progression, with opportunities for creative activities and will be provided in the following ways:

- A planned e-safety curriculum is provided as part of the Computing curriculum.
- Key e-safety messages are reinforced during assemblies and other activities
- Pupils are taught in all lessons to be critically aware of the materials / content they access on-line and are guided to validate the accuracy of information.
- Pupils should be helped to understand the need for the Student Acceptable Use Agreement and encouraged to adopt safe and responsible use both within and outside school
- Staff should act as good role models in their use of digital technologies, the internet and mobile devices
- In lessons where internet use is pre-planned, it is best practice that pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.

Education – parents / carers

Many parents and carers have only a limited understanding of e-safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's on-line behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- Letters, newsletters, web site
- Parents / Carers evenings / sessions
- High profile events / campaigns eg Safer Internet Day

Education & Training – Staff / Volunteers

It is essential that all staff receive e-safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- A planned programme of formal e-safety training will be made available to staff. This will be regularly updated and reinforced. An audit of the e-safety training needs of all staff will be carried out regularly.
- All new staff should receive e-safety training as part of their induction programme, ensuring that they fully understand the school e-safety policy and Acceptable Use Agreements.
- The E-Safety Coordinator will receive updates through attendance at external training events and by reviewing guidance documents released by relevant organisations.
- This E-Safety policy and its updates will be presented to and discussed by staff in staff meetings and INSET days.
- The E-Safety Coordinator will provide advice / guidance / training to individuals as required.

Training – Governors

Governors should take part in e-safety training, with particular importance for those who are members of any sub committee involved in technology / e-safety / health and safety / child protection. This may be offered in a number of ways:

- Attendance at training provided by the school and feed back to the governing body.
- Participation in school training / information sessions for staff or parents

Technical – infrastructure / equipment, filtering and monitoring

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their e-safety responsibilities:

- There will be regular reviews and audits of the safety and security of school technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted.
- All users will have clearly defined access rights to School technical systems and devices.
- All users will be provided with a username by the E-safety coordinator who will keep an up to date record of users and their usernames. Users are responsible for the security of their username.
- The "master / administrator" passwords for the School ICT system, used by the Network Manager must also be available to the Headteacher or other nominated senior leader and kept in a secure place
- TurnItOn is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations
- Internet access is filtered for all users. Illegal content (child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list. Content lists

- are regularly updated. There is a clear process in place to deal with requests for filtering changes.
- The school has provided enhanced / differentiated user-level filtering
- School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the Acceptable Use Agreement.
- An appropriate system is in place for users to report any actual / potential technical incident / security breach to the relevant person. Pupils to report incidents to their teachers and teachers report to TurnItOn
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations have updated firewalls.
- An agreed policy is in place for the provision of temporary access of “guests” (eg trainee teachers, supply teachers, visitors) onto the school systems. Visitors are to sign and agree to the internet usage agreement and are limited to the children’s level of access.
- An agreed policy is in place regarding the extent of personal use that staff are allowed on school devices that may be used out of school in accordance with the school’s code of conduct.
- An agreed policy is in place regarding the use of removable media (eg memory sticks / CDs / DVDs) by users on school devices. Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

Bring Your Own Device (BYOD)

- These devices are covered by the school’s normal filtering systems, while being used on the premises

Use of digital and video images

The school will inform and educate users about risks relating to images and videos and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet eg on social networking sites.
- In accordance with guidance from the Information Commissioner’s Office, parents / carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone’s privacy and in some cases protection, these images should not be published / made publicly available on social networking sites, nor should parents / carers comment on any activities involving other pupils in the digital / video images.
- Staff and volunteers are allowed to take digital / video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment, the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital / video images that pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Pupils’ full names will not be used anywhere on a website or blog, particularly in association with photographs.
- Written permission from parents or carers will be obtained before photographs of pupils are published on the school website

Data Protection

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection.

The School must ensure that:

- It will hold the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for.
- Every effort will be made to ensure that data held is accurate, up to date and that inaccuracies are corrected without unnecessary delay.
- All personal data will be fairly obtained in accordance with the "Privacy Notice" and lawfully processed in accordance with the "Conditions for Processing".
- It has a Data Protection Policy
- It is registered as a Data Controller for the purposes of the Data Protection Act (DPA)
- Responsible persons are appointed / identified - Senior Information Risk Officer (SIRO) and Information Asset Owners (IAOs)
- Risk assessments are carried out
- It has clear and understood arrangements for the security, storage and transfer of personal data
- Data subjects have rights of access and there are clear procedures for this to be obtained
- There are clear and understood policies and routines for the deletion and disposal of data
- There is a policy for reporting, logging, managing and recovering from information risk incidents
- There are clear Data Protection clauses in all contracts where personal data may be passed to third parties
- There are clear policies about the use of cloud storage / cloud computing which ensure that such data storage meets the requirements laid down by the Information Commissioner's Office.

Staff must ensure that they:

- At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.
- Use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data.
- Transfer data using encryption and secure password protected devices.

When personal data is stored on any portable computer system, memory stick or any other removable media:

- the data must be encrypted and password protected
- the device must be password protected
- the data must be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete

Communications

A wide range of rapidly developing communications technologies has the potential to enhance learning. The following table shows how the school currently considers the benefit of using these technologies for education outweighs their risks / disadvantages:

When using communication technologies the school considers the following as good practice:

- The official School email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored.
- Users must immediately report, to the nominated person – in accordance with the School policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.

- Any digital communication between staff and pupils or parents / carers (email, chat, VLE etc) must be professional in tone and content. These communications may only take place on official (monitored) School systems. Personal email addresses, text messaging or social media must not be used for these communications.
- Whole class / group email addresses may be used at KS1, while pupils at KS2 and above will be provided with individual School email addresses for educational use.
- Pupils are taught about e-safety issues, such as the risks attached to the sharing of personal details. They are also taught strategies to deal with inappropriate communications and are reminded of the need to communicate appropriately when using digital technologies.
- Personal information is not posted on the School website and only official email addresses are used to identify members of staff.

Social Media - Protecting Professional Identity

All schools, academies and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, cyberbully, discriminate on the grounds of sex, race or disability or who defame a third party may render the School or local authority liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through limiting access to personal information:

- Training to include: acceptable use; social media risks; checking of settings; data protection; reporting issues. Clear reporting guidance, including responsibilities, procedures and sanctions as defined in the child protection and safeguarding policy.
- Risk assessment, including legal risk

School staff should ensure that:

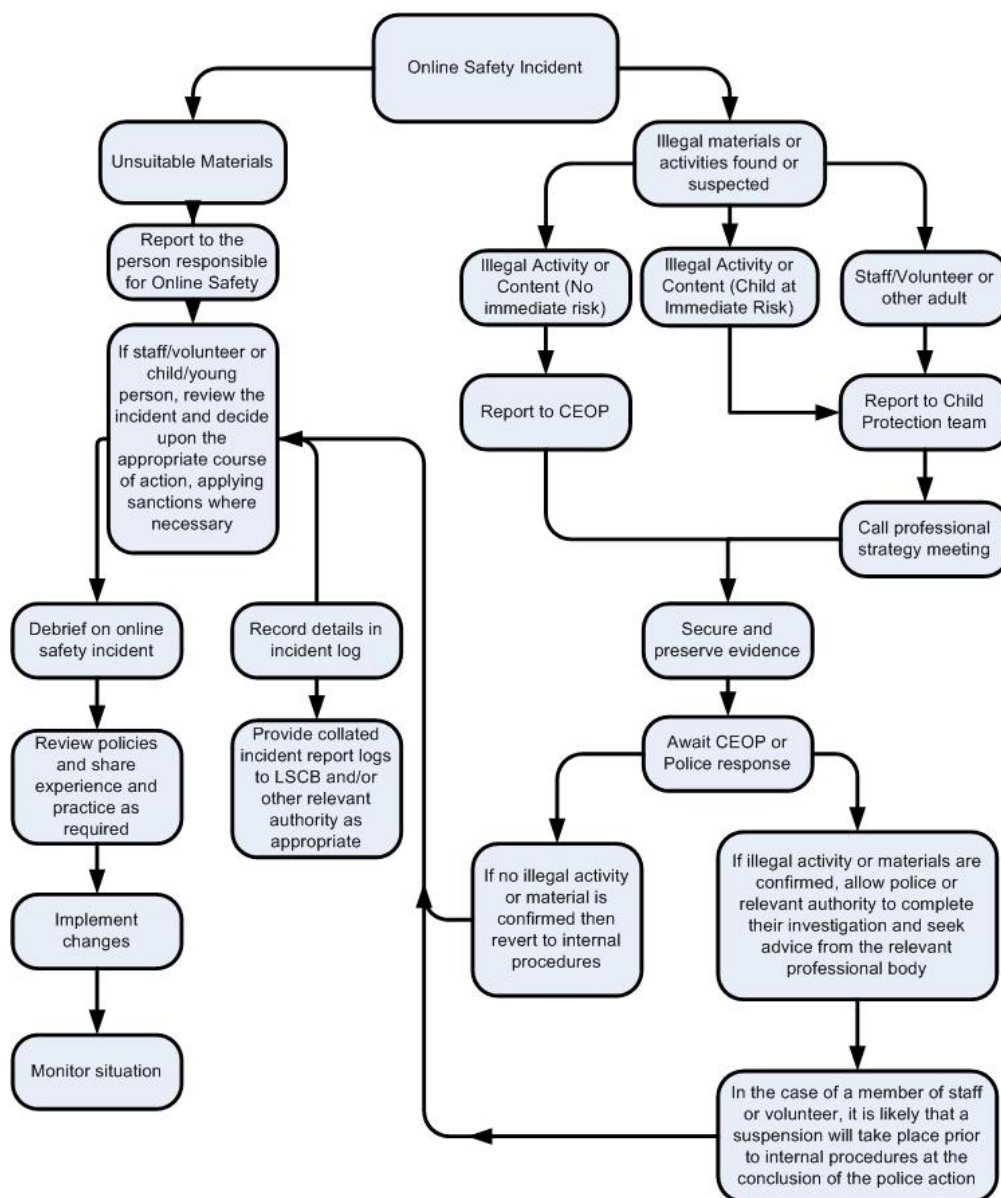

- No reference should be made in social media to pupils, parents / carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the school or local authority
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information.

Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities.

Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.

Other Incidents

It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow School policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff / volunteer involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the url of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)

- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does then appropriate action will be required and could include the following:
 - Internal response or discipline procedures
 - Involvement by Local Authority or national / local organisation (as relevant).
 - Police involvement and/or action
- If content being reviewed includes images of Child abuse then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:
 - incidents of 'grooming' behaviour
 - the sending of obscene materials to a child
 - adult material which potentially breaches the Obscene Publications Act
 - criminally racist material
 - other criminal conduct, activity or materials
- Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.

It is important that all of the above steps are taken as they will provide an evidence trail for the School and possibly the police and demonstrate that visits to these sites were carried out for child protection purposes. The completed form should be retained by the group for evidence and reference purposes.

School Actions & Sanctions

It is more likely that the School will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour / disciplinary procedures. Refer to promoting positive behaviour policy, anti-bullying policy, code of conduct policy, disciplinary policy and the safeguarding and child protection policy.

Please also refer to the following policies / agreements which include references to E-safety:

- Acceptable Use Agreements for KS1 / KS2 – Students / Parents
- Safeguarding/Child Protection Policy
- Social Media Policy
- Code of Conduct
- Anti-Bullying Policy
- Health & Safety Policy
- Privacy Notice
- Computing Policy
